

21st Century Professional Development at Your Fingertips!

6 Ways to Utilize DeeperDive's Courses

1 FLIP IT! Learn online first, then attend faculty meeting to discuss and share in classroom applications.

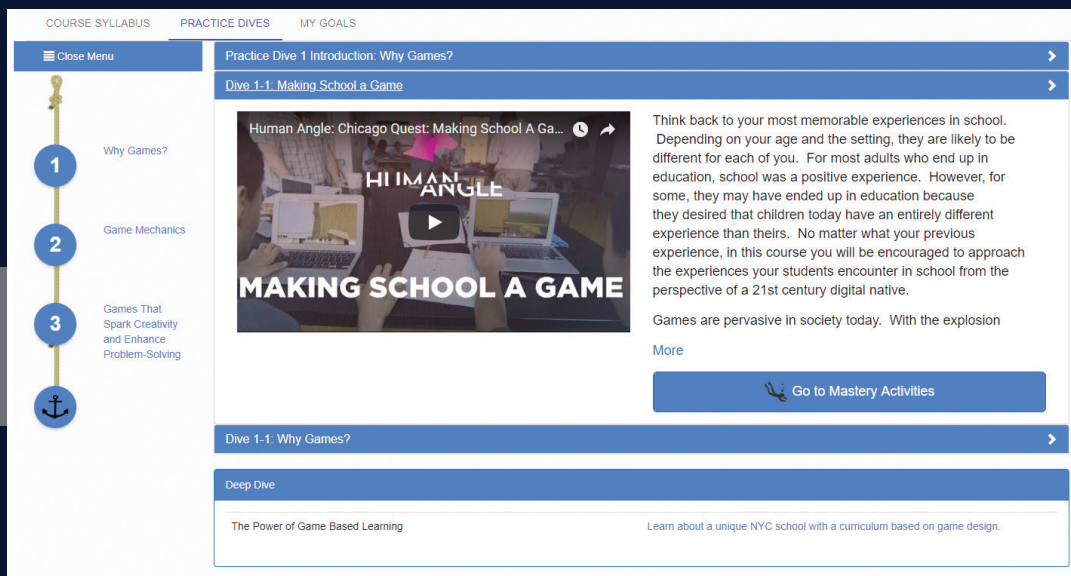

2 BLEND IT! Mix it with live PD that you provide & involve staff in providing some of the PD by extending an element from the course.

3 PERSONALIZE IT! Share best examples of personal learning and tie it to an individual growth or improvement plan.

4 WIN IT! Emphasis on earning points, leaderboard, and then using bronze, silver, gold for prize raffles, etc.

5 COLLABORATE WITH IT! Provide time in PLC's for teachers to learn as a group side by side. Make some project teams or paired projects.

6 COACH IT! Use a course as the content and support for coaching in specific areas identified by staff members. Utilize coaches to provide mentoring as needed with course progress and portfolios.

"This is what everyone in our school needs!" Teacher Leader, FL
